

## PRESIDENT ANSWERS R. R. BROTHERHOODS

**But His Decision On Wage Demands Will Not Be Made Public At Present**

(By Associated Press)  
Washington, Feb. 13—President Wilson has reached decision on the railroad wage controversy. The President's decision was communicated to the heads of the brotherhoods, but what he said was not announced, at the White House. It was said to be "unalterable," and "based on justice to all interests."

Officials said it was a "decision containing a proposal" and from this, it is assumed the President refused to grant the wage demands and has made a counter proposition to the men. Secretary Tumulty declined to say whether the President specifically refused the wage demands saying "Every one wanted to settle the strike" and that the Brotherhood chiefs should have an opportunity to consider the President's suggestion or proposal without outside interference.

Director General Hines is understood to have suggested to the President that if wage increases are granted, the roads would seek a freight rate increase which would mean increased living costs. Inasmuch as the unions have been pressing strongly for living cost reductions, officials said there is reason to believe the President employed this argument in answer to the union spokesmen.

Union leaders promised to consider the President's suggestions.

## NEGRO CREW LAKES BIG BOOZE TO CUBA

New York, Feb. 13—With a cargo of liquor valued on the books at \$4,800,000, and by onlookers at figures ranging from ten times that sum up to the equivalent of the national debt, the steamship Yarmouth of the Black Star Line, with a negro captain, a negro crew and thirty-four negro passengers, weighed anchor shortly before noon today in the Hudson River at the foot of West Eighth street, and sailed for Havana.

The Yarmouth had had more trouble than all the Uncle Tom's Cabin companies that ever played the kerosene circuit. Sailing on January 17 for Havana with her priceless cargo—wines, champagne and 21,419 cases of Green River—she had trouble at sea, signaled for help, and was towed back, after throwing 500 cases of whisky overboard off the Virginia coast. Twenty prohibition agents guarded the ship night and day at New York to prevent the stuff from getting ashore, and arrested several for trying to run the blockade.

## Jews Furnished 900,000 Soldiers In World War

London, Feb. 13—Dr. Max Nordau told the English Zionist Federation the other day that in the world war the Jews had furnished 900,000 soldiers to the various armies. This, he said, was about seven per cent of the whole number of Jews, a proportion equalled by few and surpassed only he believed, by the French. The Jews had lost 80,000 dead and had about 200,000 casualties.

But what had the Jews fought for, he asked. Even in the advanced and highly civilized countries of the West, he continued, a huge wave of anti-Semitism was welling up; in the new countries that had arisen in the East the most criminal passions were let loose against the Jews. In this dark picture there was one bright spot, the British Declaration in favor of a Jewish Declaration in Palestine.

## BOGGS THINKS TRUCKS ARE GETTING TOO BIG

(By Associated Press)

If Kentucky is to keep in condition the roads which are proposed under bills now pending in the General Assembly, Commissioner of Public Roads Joe S. Boggs is of the opinion that the weight of trucks will have to be reduced, said a dispatch from Frankfort the other day. The five-ton trucks permitted by law which will carry a weight of 24,000 pounds, Commissioner Boggs said are tearing up the roads in the State. He believes that the trucks should be limited to three tons. An investigation made by officials of Montgomery county disclosed the fact that the five-ton trucks permitted by law are working havoc with the roads in that county and they are recommending that the truck weight, which includes the load hauled, should be limited to 15,000 pounds. Commissioner Boggs goes them one better and proposes that the weight be limited to 6,000 pounds.

## OLDHAM AND WIGGINS VISIT BIG OIL FIELDS

(By Associated Press)

The Lexington Leader's oil column had the following of interest here yesterday: Col. Ronald C. Oldham and Don C. Wiggins, of Winchester, both largely interested in the oil business, were in Lexington today. They have just returned from the Louisiana oil fields and spent several days at Shreveport, the metropolis of the new Eldorado, and say that this field is undoubtedly one of the richest in the mid-Continent territory. Mr. Wiggins says excitement is high and that fabulous prices are being paid for leases in that section.

Colonel W. P. Walton, veteran editor and one of the best known and most capable newspaper men of the State has been secured by Manager Thomas M. Owsley of the Kentucky Oil Exchange, to take the place of Miss Mary T. Amis in furnishing field reports on the oil developments in Kentucky. Colonel Walton will make periodical trips to Winchester and Louisville and familiarize himself with the results of his observations and findings in a series of bulletins, which will be flashed daily by the Kentucky Oil Exchange on its board in Lexington and Louisville.

The McCombs Producing & Refining Company is drilling a well in the Desdemona field of Texas, which is expected in within the next ten or twelve days. This well is good territory, almost surrounded by production, and the company officials are sanguine that it will make a good producer.

## Wagnerian Opera Is Is Heard In Rome Again

(By Associated Press)

Rome, Feb. 13—Wagnerian opera has returned to the stage of the Costanzi theater in Rome without a protest. "Die Walkure" was advertised as the second offering in a season which opened with Mascagni's "Iris." No criticism of the plan to produce the German opera appeared in the press. The theater was crowded and no objectors interfered with a performance which the press of Rome commended highly.

"It is a strange coincidence that Richard Wagner again walked across the stage of the Costanzi at the same time Austrian children came into Italy by the thousands to escape the hunger and privations of their unhappy country," one of the Rome papers commented.

For many months Wagnerian music has been used at concerts in Rome and other Italian cities, especially in Milan and Bologna, without objections from the press or the public.

## TAX ON JACK'S SHARE WILL AMOUNT TO \$304,350

New York, Feb. 13—A representative of Jack Dempsey, champion pugilist, called on William H. Edwards, Collector of Internal Revenue, at his office in the Custom House today and asked what the income tax would be on \$500,000.

"The normal tax on \$500,000 is \$40,840 and the surtax \$263,510, making a total of \$304,350," said the Collector.

## WHILE THE CAT WAS AWAY, ETC.

**"The Boys" Had Quite a Time With "White Lightning" At Mt. Vernon This Week**

The old saying that when the "cat's away the mice will play" was rather conspicuously illustrated at circuit court in Mt. Vernon this week, according to Judge J. C. Chenault, who has just returned from the capital of Rockcastle county, where he went on legal business.

Judge B. J. Beatum, has been ill for several days with what seemed to be a cold, but he managed to crawl out of bed and charge and impanel his grand jury. He was so weak, however, that he was forced to his bed again, leaving the juries to get to work.

Among the prisoners were four men charged with moonshining who were placed in jail, and their still was offered as evidence. It seems that a member of the petit jury became involved some way in the proceedings, and the grand jury indicted him for moonshining too. Then one of the grand jurors got hold of some of the "white lightning," and got so drunk that he had to be clapped into the bastille.

While this was going on, the four "shiners" broke out of jail, and not wishing to leave any evidence behind them, they stole their still and outfit as they went along, and made good their escape, well equipped for business again.

Judge Chenault says that it was certainly a real comedy all around.
